the American Legion hereby peti-tions your honorable body to pur-chase and present to the post an American Legion standard colors. We are informed that the standard will cost about \$90.00 and the post does not feel that it can afford to buy the colors out of money in its Treasury, and they are informed that many other cities and villages are purchas mg the standard for their local post.

We can assure your honorable body that our post will greatly appreciate anything that is done for them in this matter.

More and Better Lig.

OR more than 30 years the Standard Oil Company (Indiana) has been a big refiner

During all this time there has been a steady improvement in the quality of its product. This improvement has been more marked in the past ten or fifteen years during which time the Standard Oil Company (Indiana) has developed methods of manufacturing to eliminate the danger of lamp explosions.

While the kerosene has been improved the devices for using it have remained unchanged.

Recognizing the fact that the users of Perfection Kerosene were unable to get a maximum service from the oil they burned, and realizing that the failure was due not to the oil but to the devices, the Standard Oil Company (Indiana) set its experts to work to find a better burner and a more efficient channey.

These men, working with the manufacturers of burners and chimneys, have succeeded in developing devices which increased largely the efficiency of the oil.

The Standard Oil Company (Indiana) does not sell lamps. But it believes that the users of lamps should be informed as to how to get the best results from the kerosene they use.

To accomplish this result this Company is distributing sixty thousand of the new burners and chimneys to dealers handling kerosene that they may demonstrate to their patrons how to get the most light from Perfection Kerosene by using appliances correctly designed.

The Standard Oil Company (Indiana) has arranged with leading chimney manufacturers to stamp chimneys made in accordance with the design and specifications with the following trade mark:

This is but one of the many ways in which the Standard Oil Company (Indiana) seeks to increase the efficiency of the service it is render-ing the people of the territory it serves.

Standard Oil Company 910 So. Michigan Ave., Chicago
